Theme: Resource Mobilization Theory: Why Human Rights Movements Succeed in the Digital Age?

Title : Living in the modern era, we are victims of discrimination today

We know that a man is born free. A person has certain rights from birth to growth. And these rights make people's lives easier. The rights are the right to safe food, the right to free expression, social rights, the right to practice one's religion, the right to safe housing, the right to fair trial, etc. We call these human rights. The best definition of human rights is Human rights are rights inherent to all human beings, regardless of race, sex, nationality, ethnicity, language, religion, or any other status. Human rights include the right to life and liberty, freedom from slavery and torture, freedom of opinion and expression, the right to work and education, and many more. Everyone is entitled to these rights, without discrimination.

Number of human rights are also mentioned in the law but in many cases we see these violations. Violations of human rights are more common due to personal arbitrariness, influence of power, lack of accountability etc. Point 18 of the United Nations universal declaration of human rights states, "Everyone has the right to freedom of thought, conscience and religion; this right includes freedom to change his religion or belief, and freedom, either alone or in community with others and in public or private, to manifest his religion or belief in teaching, practice, worship and observance". But a few days ago an incident happened with my friend which completely broke these rules.

My friend and his brother rented a house a few days ago. The house was completely looked after by the caretaker of that house. My friend got home after talking to the caretaker. After a few days my friend's parents came to visit. Then the owner of the house realizes that they belong to the Hindu community. The owner of the house asked my friend and his family to leave the house immediately.

"Evicted from rental home"

Another such example is a new's published in Janakantha newspaper on September 3, 2023. An influential person in Patuakhali district wants to forcefully grab the land of the minority community. When they resisted, various pressures were applied on them. At one point, there were allegations of beating them. He started creating various pressures on them with false cases. That minority community is still waiting for proper justice.

"Occupation of minority houses"

The above two examples are similar human rights violations. Which is never desirable for a

man. There are many other incidents around us through which violations occur. We ourselves often violate many human rights without knowing it. Every person living in a sovereign country has the right to live freely. Protecting this right is the responsibility of a country and it is important for each of us to be aware.
